

## "SORRENTO" Litter Bin with levelling system

**Sheet code:** CECLo05  
**Drawing code:** AC16010402  
**Revision:** 02\_01/10/2015

**Designer:**  
 Bellitalia Design Department

**Product:** Cylindrical auto-levelling litter bin model "SORRENTO", composed by a base, two elements and a central band in between. The litter bin is equipped with an internal bin or bag holder and with a **levelling system**.

**Dimensions:** diameter: 625 mm;  
 height: 805 mm;  
 total weight: 260 kg;  
 capacity: 36/70 litres.

**Material:** Both the base and the two elements can be manufactured using reconstituted natural marble stones, white granite or grey concrete conglomerate. Copper or stainless steel central band. The internal bin and the levelling stirrups are in steel.

**Reinforcing:** Both the base and the two elements are steel-reinforced and fitted with bushes that permit its handling through stirrups.

**Finishing:** All visible concrete surfaces are completely sandblasted and then covered with a transparent anti-decay coating, or, upon request, with nanotechnology and/or anti-graffiti products. The internal bin is treated by a hot dip galvanisation. The copper band is painted with a protective coating for a durable shiny appearance, while the stainless steel band undergoes a satin finish treatment.

**Handling:** Use appropriate equipment when handling, using internal hooks.

**Installation:** Simply place the base on the flooring and level the upper part.
