

“SORRENTO” Litter Bin with levelling system, covering and ashtray

Sheet code:

CECL007

Drawing code:

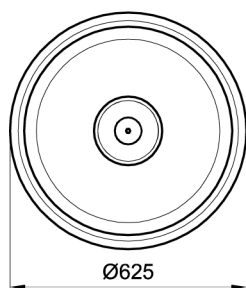

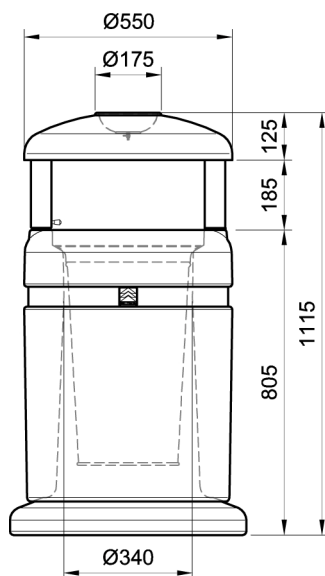

AC33010102

Revision:

02_01/10/2015

Designer:

Bellitalia Design Department

Product:

Cylindrical auto-levelling litter bin with covering and ashtray, model “SORRENTO”, composed by a base, two elements and a central band in between. The litter bin is equipped with an internal bin or bag holder, a covering that can be opened by rotation, a removable ashtray, an antitheft chain, and with a **levelling system**.

Dimensions:

diameter: 625 mm;
height: 1115 mm;
total weight: 287 kg;
capacity: 36/70 litres.

Material:

Both the base and the two elements can be manufactured using reconstituted natural marble stones or white granite conglomerate. Copper or stainless steel central band. The covering, the internal bin and the levelling stirrups are in steel; copper ashtray.

Reinforcing:

Both the base and the two elements are steel-reinforced and fitted with bushes that permit its handling through stirrups.

Finishing:

All visible concrete surfaces are completely sandblasted and then covered with a transparent anti-decay coating, or, upon request, with nanotechnology and/or anti-graffiti products. The covering is treated by a hot dip galvanisation and painted with RAL7021, while the internal bin and levelling stirrups are only treated by a hot dip galvanisation. The copper band and the ashtray are painted with a protective coating for a durable shiny appearance, while the stainless steel band undergoes a satin finish treatment.

Handling:

Use appropriate equipment when handling, using internal hooks.

Installation:

Simply place the base on the flooring and level the upper part.
