

**SANIFICATION
POINT**

The design solution that simplifies operations of personal sanitization and waste disposal.

The available configurations respond to the needs of public and private environments, such as offices, shopping malls, communal spaces in residential areas, schools and much more.

Stickers kit for:
disposable gloves / masks / wipes

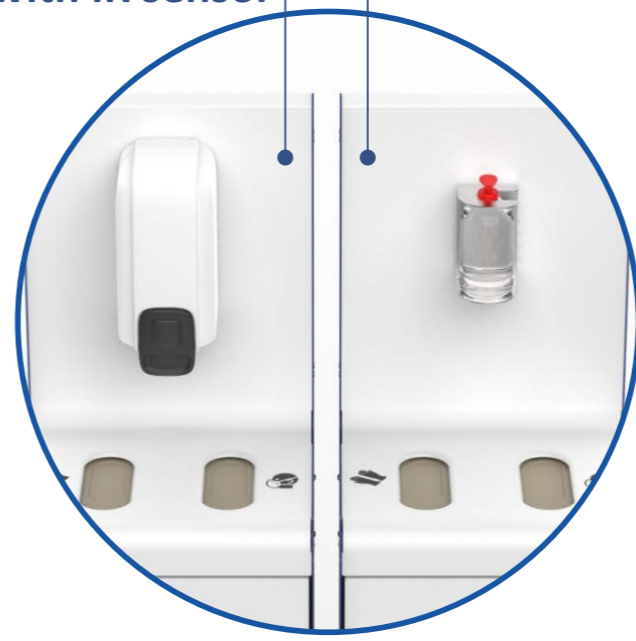

Optional wheels

Dimensions (version with feet):
H=1437 mm, L=408 mm, D=356 mm,
Inner liner capacity: 60 lt
Weight: approx. 28 kg

*Dispenser with IR sensor *Bottle-holder

Sanification Point is a practical and elegant solution suitable for indoor use.

It is designed to be, at the same time, a hand sanitization station, and a distribution point for devices, such as disposable gloves, masks, or wipes.

It is simple and intuitive to use, and specific pictograms can be applied for a visual indication.

The system also includes a proper litter bin with a steel inner liner, to ease the collection and disposal of waste.

Thanks to appropriate pre-arranged holes on the front side, the station can be equipped with a battery powered automatic dispenser of hand-sanitizer or with a stainless steel universal bottle-holder.

*dispenser and bottle-holder shown are purely indicative.
These items can vary according to the availability.

The external structure is made of powder coated steel or stainless steel

Front panel is always in RAL 9010, smooth finish. Lateral panels can be coloured in 7 different RAL, smooth finish.

-  RAL 5012
-  RAL 3000
-  RAL 6018
-  RAL2008
-  RAL 9005
-  RAL 7001
-  RAL 9010

Upon request, customized stickers for lateral sides can be provided.

"SANIFICATION POINT" sticker available in 6 colour combinations.

Stainless steel version

Powder coated steel version

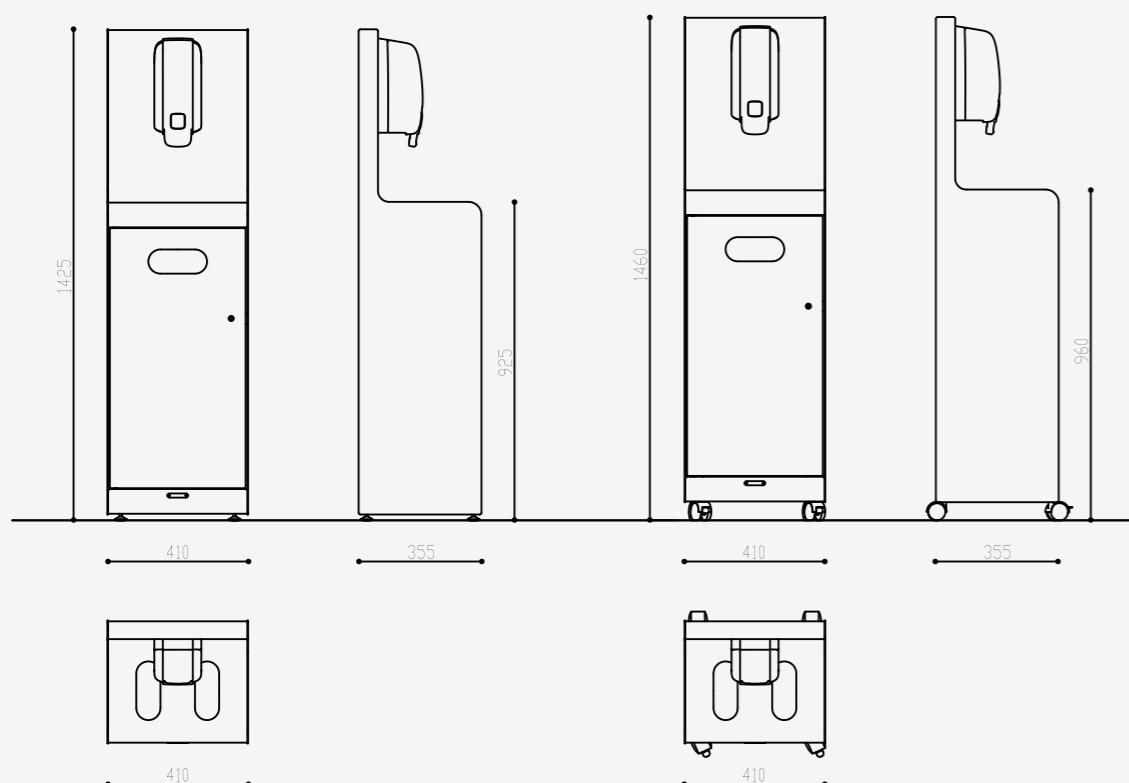

Sanification Point, suitable for indoor use, is available in two versions: one with external structure entirely in stainless steel and the other with external structure in powder coated steel, with front side always in RAL 9010 smooth finish and lateral sides coloured upon choice between 7 options (RAL 9010, RAL 3000, RAL 5012, RAL 6018, RAL 2008, RAL 9005, RAL 7001).

In both versions, the basic module always includes:

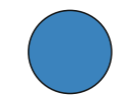

- Pre-arranged holes on the front wall;
- Compartment with front-drop door and handle for the positioning of devices, such as wipes, disposable gloves, masks, or others (not included), with stickers pictograms, to be applied externally;
- Front door with 2 laser cut openings, to insert waste, and triangular key spring lock.
- "SANIFICATION POINT" sticker for the front door - not applied – coloured upon choice between 6 options: blue & white, red & white, green & white, orange & white, black & white, and grey & white;
- Sendzimir steel sheet inner liner for waste collection;
- Adjustable feet.

Upon request, the following options can be provided:

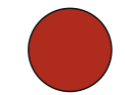

- a battery powered automatic dispenser of hand-sanitizer, or, alternatively, a stainless steel universal bottle-holder. Both to be fixed to the holes pre-arranged on the front wall;
- Four wheels in ABS - not installed – to substitute the standard adjustable feet;
- Stickers customized with any logo at your choice to be applied on the sides.

Front panel is always in RAL 9010, smooth finish.
Lateral panels can be coloured in 7 different RAL, smooth finish.
